## Consultant Proposal for Town of Cutler Bay Middle School Pedestrian Capacity Improvements

**Project:** Proposed Sidewalk Connectivity of Perimeter Streets to Increase Pedestrian Capacity and Improve Safe Routes to School (SRTS) for Cutler Bay Middle School. Located at: 19400 Gulfstream Road, Cutler Bay, Florida, 33157.

Project Limits: SW 191 Street (west side), SW 99 Avenue (south side), SW 193 Street (east side) and SW 98 Avenue (south side) and a portion of SW 194 Terrace (275 feet on east side) adjacent to Cutler Ridge Middle School including ADA and Pedestrian improvements at intersections. Approximate project length 4,750 LF (See attached Exhibit "B").

The proposed project scope includes; Sidewalk Design and Connectivity, ADA Ramps with truncated dome at all intersections along sidewalk path, Curb and Gutter as necessary, benches & Trash receptacles as necessary, location of remote outdoor fitness equipment, Signing and Pavement markings, tree relocations and planting as directed by the Town.

### *Deliverables*

#### Topographic Survey to include:

- All edge of pavements, sidewalks, paved areas, rights of way lines, light poles, power, poles, bus stops, guardrails, handicap ramps, walls, signal mast arms, drainage structures, manholes, signs, FP&L power poles, guy anchors, utility castings, poles (including guy wires), fences, and all other significant above ground features within the survey corridor.
- Spot elevations throughout the corridor to include elevations at 100 foot intervals and at high low points. In addition, most above ground improvements collected will have an elevation.
- Existing pipe invert elevations, pipe direction and apparent pipe diameters at all existing drainage structures within the survey limits.
- All existing elevations shall be based on NGVD 29 datum.

### *Contract Documents*

The plans will be completed on a standard FDOT 11"x17" format and will be consistent with the latest Federal, State and Town standards and specifications The plans shall include the following sheets:

- Key Sheet
- Typical Section Sheets
- General Notes
- Tabulation of quantities Sheets
- Plan Sheets (Only)

- Miscellaneous Details Sheets
- Cross Sections
- Traffic Control General Notes
- Stormwater Pollution Prevention Plan (SWPPP)
- All required FDOT specifications

The scope will also include Opinion of Probable Costs as per FDOT Design quantities and Estimates, assist in all required permit applications, provide plan revisions as necessary to address permitting comments until all required permits are obtained,

Additionally this proposal includes Post Design Services to include attending the mandatory ITB meeting and assistance to bidder's inquiries, attending the pre-construction meeting, Shop Drawings review and up to six (6) requests for Information (RFI'S) from the Contractor.

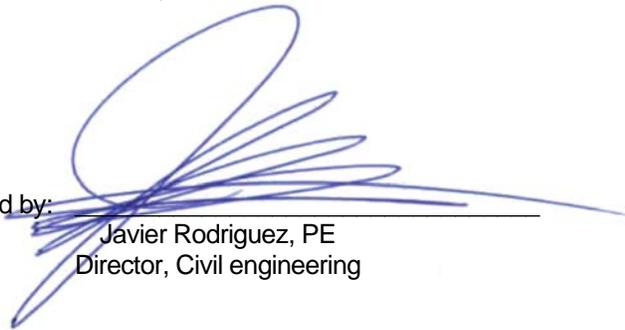

All project deliverables will be in accordance with;

- Americans with Disabilities ACT (ADA)
- Manual of Uniform Traffic Control Devices (MUTCD)
- Federal Safe Routes to School Program Guideline.

***FEE***

The total lump sum fee for this project will be **\$ 60,448.00**. A Fee breakdown is attached.

Submitted by:

A large, stylized handwritten signature in blue ink, consisting of several overlapping loops and a long horizontal stroke extending to the right.

Javier Rodriguez, PE  
Director, Civil engineering
