165.——

166.——

167.—— The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is union or non-union.

168.——

169.—— Union Identifiers

170.——

171.—— An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

183.—— LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. Florida Department of Transportation Local Agency Program Requirements

PREVAILING MINIMUM WAGE (DAVIS BACON)

For this Contract, payment of predetermined minimum wages applies.

The Department of Labor Wage Rates applicable to this Contract are listed in Wage Rate Decision Number(s) FL140221 (attached) as modified up through ten days prior to the opening of bids.

Obtain the applicable General Decision(s) (Wage Tables) through the Department's web site and ensure that employees receive the minimum wages applicable. Review the General Decisions for all classifications necessary to complete the project. Request additional classifications through the Engineer's office when needed.

When multiple wage tables are assigned to a Contract, general guidance of their use and examples of construction applicability is available on the Department's web site. Contact the Department's Wage Rate Coordinator before bidding if there are still questions concerning the applicability of multiple wage tables. The URL for obtaining the Wage Rate Decisions is www.dot.state.fl.us/construction/wage.htm.

Contact the Department's Wage Rate Coordinator at (850) 414-4492 if the Department's web site cannot be accessed or there are questions.

13. Note: Executive Order (EO) 13658 establishes an hourly minimum
14. wage of \$10.10 for 2015 that applies to all contracts subject
15. to the Davis-Bacon Act for which the solicitation is issued on
16. or after January 1, 2015. If this contract is covered by the
17. EO, the contractor must pay all workers in any classification
18. listed on this wage determination at least \$10.10 (or the
19. applicable wage rate listed on this wage determination, if it
20. is higher) for all hours spent performing on the contract. The
21. EO minimum wage rate will be adjusted annually. Additional
22. information on contractor requirements and worker protections
23. under the EO is available at www.dol.gov/whd/govcontracts.

183.			
184.	The body of each wage determination lists the classification		
185.	and wage rates that have been found to be prevailing for the		
186.	cited type(s) of construction in the area covered by the wage		
187.	determination. The classifications are listed in alphabetical		
188.	order of "identifiers" that indicate whether the particular		
189.	rate is a union rate (current union negotiated rate for local),		
190.	a survey rate (weighted average rate) or a union average rate		
191.	(weighted union average rate).		

192.
193. Union Rate Identifiers
194.
195. A four letter classification abbreviation identifier enclosed
196. in dotted lines beginning with characters other than "SU" or
197. "UAVG" denotes that the union classification and rate were
198. prevailing for that classification in the survey. Example:
199. PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of
200. the union which prevailed in the survey for this
201. classification, which in this example would be Plumbers. 0198
202. indicates the local union number or district council number
203. where applicable, i.e., Plumbers Local 0198. The next number,
204. 005 in the example, is an internal number used in processing
205. the wage determination. 07/01/2014 is the effective date of the
206. most current negotiated rate, which in this example is July 1,
207. 2014.
208.
209. Union prevailing wage rates are updated to reflect all rate
210. changes in the collective bargaining agreement (CBA) governing
211. this classification and rate.
212.
213. Survey Rate Identifiers
214.
215. Classifications listed under the "SU" identifier indicate that
216. no one rate prevailed for this classification in the survey and
217. the published rate is derived by computing a weighted average
218. rate based on all the rates reported in the survey for that
219. classification. As this weighted average rate includes all
220. rates reported in the survey, it may include both union and
221. non-union rates. Example: SULA2012-007 5/13/2014. SU indicates
222. the rates are survey rates based on a weighted average
223. calculation of rates and are not majority rates. LA indicates
224. the State of Louisiana. 2012 is the year of survey on which
225. these classifications and rates are based. The next number, 007
226. in the example, is an internal number used in producing the
227. wage determination. 5/13/2014 indicates the survey completion
228. date for the classifications and rates under that identifier.
229.
230. Survey wage rates are not updated and remain in effect until a
231. new survey is conducted.
232.
233. Union Average Rate Identifiers
234.
235. Classification(s) listed under the UAVG identifier indicate
236. that no single majority rate prevailed for those
237. classifications; however, 100% of the data reported for the
238. classifications was union data. EXAMPLE: UAVG-OH-0010
239. 08/29/2014. UAVG indicates that the rate is a weighted union
240. average rate. OH indicates the state. The next number, 0010 in
241. the example, is an internal number used in producing the wage
242. determination. 08/29/2014 indicates the survey completion date
243. for the classifications and rates under that identifier.
244.
245. A UAVG rate will be updated once a year, usually in January of
246. each year, to reflect a weighted average of the current
247. negotiated/CBA rate of the union locals from which the rate is

248. based.
