Project: Variance of Landscape Requirements (Sec. 3-102 – Types of Landscaping)

CC: Sarah Sinatra Gould, AICP, Consultant Planner

REQUEST

A RESOLUTION OF THE MAYOR AND TOWN COUNCIL OF THE TOWN OF CUTLER BAY, FLORIDA, APPROVING A VARIANCE APPLICATION TO ARTICLE VII, LANDSCAPING AND TREE PRESERVATION, SEC. 3-102 OF THE TOWN CODE RELATING TO THE LANDSCAPING REQUIRED FOR SURFACE PARKING AREAS AND BUILDING PERIMETERS FOR 1622 INVESTMENT CORP. GENERALLY LOCATED SOUTHWESTERLY OF CARIBBEAN BOULEVARD AND U.S. 1 EXTENDING A DISTANCE OF 917.27 FEET (FOLIO NOS. 36-6007-000-0333, 36-6007-000-0334, 36-6007-000-0330, 36-6007-000-0336); AND PROVIDING FOR AN EFFECTIVE DATE.

1622 Investment Corp. is seeking approval of a site plan and seven (7) associated variances to permit an 18,182 square foot retail/office development on four (4) parcels totaling ± 1.05 net acres (45,855 sq. ft.). A copy of the proposed variance application including the letter of intent is provided in Attachment "B". The Variance requested is from Sec. 3-120 Types of landscaping to allow the development to have no perimeter planting along the rear of the surface parking area and less than the required landscaping along the building perimeter. In addition to this request for a variance of the landscaping required, the Applicant is seeking site plan approval and six (6) other variances. The application for approval of the site plan may only be approved administratively by staff if the Town Council approves all the associated variances.

Memorandum

Less that portion of the above-described property deeded to Miami-Dade County, Florida which is more particularly described as Follows:

That Area Bounded by the Northwestern Right-Of-Way Line of State Road No. 5 (US No. 1) as shown on State Road Right-Of-Way Map in the NE ¼ of Section 7, Township 56 South, Range 40 East, and recorded in Plat Book 83, at Page 51, of the Public Records of Miami-Dade County, Florida, and bounded by the Southwesterly Right-Of-Way of Caribbean Boulevard as shown on the Right-Of-Way Deed, dated October 16, 1957 and recorded in Official Records Book 2195, at Page 436, of the Public Records of Miami-Dade County, Florida, and bounded by 25 foot radius arc concave to the West, said arc being tangent to Both of the Last Described Lines.

PARCEL 4:

A Parcel of land lying in the NW ¼ of the NE ¼ of Section 7, Township 56 South, Range 40 East, Miami-Dade County, Florida, more particularly described as follows:

Commencing at the Northwest corner of the SW ¼ of the NE ¼ of said Section 7; thence run S00°07'19"E along the Westerly line of the SW ¼ of the NE ¼ of said Section 7, a distance of 411.05 feet; Thence run N42°15'01"E along the Southeasterly Right-Of-Way line of the Florida East Coast Railway a distance of 1027.46 feet to the Point of Beginning of the Parcel of land hereinafter to be described; Thence continue along the last mentioned course, along the Southeasterly Right-Of-Way of the Florida East Coast Railway a distance of 305 feet; Thence run S47°44'59"E for a distance of 50 feet to a Point on the Northwestern Right-Of-Way line of State Road No. 5, also known as Dixie Highway; Thence run S42°15'01"W along the Northwestern Right-Of-Way line of said State Road No. 5, a distance of 305 feet; Thence run N47°44'59"W for a distance of 50 feet to the Point of Beginning.

BACKGROUND AND ANALYSIS

The proposed development, if approved, will be located on four (4) parcels approximately ±1.05 net acres in size. The property is located along the west side of U.S. 1, south of Caribbean Boulevard and east of the South Dade Transitway Corridor (Busway). This narrow strip of land extends approximately 917.27 feet northeast to southwest and consists of vacant land, parking and one existing building known as "The Dome". The area is served with power and telephone from Florida Power and Light Company and AT&T, respectively. Municipal water and sewer will be provided by Miami-Dade County while solid waste disposal will be by private service provider. The site currently has access to the roadway network via U.S. 1 and is adjacent to a Transit stop.

Proposed Development Project

The proposed project is an 18,182 square foot retail/office development on four (4) parcels totaling ± 1.05 net acres (45,855 sq. ft.). A 2,280-foot structure, known as The Dome, currently exists and will be renovated. The Applicant proposes the addition of three (3) two-story retail/office structures located to the northeast and southwest of the existing structure. The overall lot configuration is one that is 917.27 feet long and 50 feet deep bounded by U.S.-1 on the front, the South Dade Transitway to the rear and Caribbean Boulevard to the northeast (Side Street).

Calvin, Giordano & Associates, Inc.
EXCEPTIONAL SOLUTIONS™

Memorandum

The Applicant proposes the following:

	Level 1 – Retail (sq. ft.)	Level 2 – Offices (sq. ft.)	Total Bldg. Sq. Ft.
New Building 1	2,469	1,000	3,569
New Building 2	5,208	4,000	9,208
Existing Building	2,280	--	2,208
New Building 4	2,225	1,000	3,225
TOTAL	12,182	6,000	18,182

The Applicant proposes to provide 52 parking spaces, which is four (4) spaces less than the minimum required. Also, this proposal generally complies with Article VI. Architectural and Form Standards, Section 3-80 Nonresidential and mixed use and landscape requirements.

As stated previously, a number of variances are being requested based on the overall parcel configuration i.e. narrowness of the parcel.

Land Development Regulations

Section 3-36 of the Code provides the variance approval evaluation criteria used by the Town Council to evaluate a variance application.

Section 3-60 TC, Town Center District establishes the permitted uses and development parameters of any development within this zoning district. The development as proposed for retail and office uses is in compliance with the allowable established uses, however, variances will be required because a number of development parameters have not been met. The variance that is the subject of this request is to vary from the following Section:

Sec. 3-102. - Types of landscaping.

The types of landscaping are enumerated below and shall meet the following performance requirements. Where applicable, the provisions of (subsections (5) and (6) of this section shall not apply to areas zoned town center (TC) and transit corridor (TRC).

(1) *Surface parking.* A landscaped area shall be provided along the perimeter of all parking, loading, drive, and parking storage areas. The landscape area shall have a minimum width of ten feet and shall be planted with four trees and 35 shrubs per 100 linear feet or fraction thereof. Plants, at the time of planting, shall cover the entire width of the area.

a. Landscaped areas shall be provided at the ends of each parking aisle. These areas shall be a minimum of 400 square feet for double aisle parking stalls and 200 square feet for single aisle parking stalls, have a minimum width of ten feet and be planted with a minimum of one tree and ten shrubs per 200 square feet of area.

b. Parking lots, loading areas, drive(s), and exterior storage areas shall be landscaped so that no parking lot(s), loading area(s), drive(s), and exterior storage area(s) is more than 40 feet from the base of a tree.

Calvin, Giordano & Associates, Inc.
EXCEPTIONAL SOLUTIONS™

Memorandum

(2) *Building perimeter.* All multifamily, planned development and nonresidential development shall provide building perimeter planting along the facade of buildings in the amount of 200 square feet per 1,000 square feet of building ground floor area. The building perimeter area shall be planted with a minimum of two trees and 20 shrubs per 200 square feet of area and have a minimum width of six feet.

Land Use and Zoning

The Future Land Use Map designation is Town Center. This land use category permits sales and service activities, professional and clerical offices, hotels, motels, medical buildings and offices, cultural and entertainment uses, community facilities, governmental facilities, institutional uses, parks and open space, and residential uses integrated both horizontally and vertically in a high quality, design-unified, mixed use environment. Horizontal and vertical mixed use development is allowed, in accordance with the frontage and use requirements incorporated into the land development regulations. The proposal is consistent with the property's Future Land Use Designation.

This parcel is zoned TC, Town Center District. This District is coded to accommodate the higher overall intensity of development required to support the Town. Town Center District anchors the surrounding residential neighborhoods while also serving the broader community.

Permitted uses include: Mixed use; Commercial and retail; Multifamily (within a mixed use development); civic (excluding educational facility/school); Office; Hotel; Family entertainment center; Bar or nightclub; Park; Professional Service; Place of public assembly (minimum 1,000 feet between another place of public assembly; Recreational facility; Restaurant; Outdoor dining; Medical office (TC Center Sub-District only).

VARIANCE REQUESTED

Variance from Sec. 3102 to permit less than the required landscaping for surface parking areas and building perimeters.

VARIANCE APPROVAL EVALUATION CRITERIA

Section 3-36 of the Land Development Code outlines the variance approval standards that apply in this case and they are provided below along with a compliance evaluation of the subject variance request.

1. The variance will result in conditions that maintain and are consistent in all material respects with the intent and purpose of these Regulations, and that the general welfare, stability and appearance of the community will be protected and maintained.

The applicant is requesting that the Town vary its landscaping requirements. The applicant has stated the property's unusual linear shape creates a situation where it makes it very difficult to accommodate all of the town's landscape requirements. The Town's vision is for improved community aesthetic

Calvin, Giordano & Associates, Inc.
EXCEPTIONAL SOLUTIONS™

Memorandum

qualities, definition of the public space and encouragement of interesting and inviting pedestrian experiences. This is an important and distinguishing Town development regulation.

But in staff's opinion the applicant has taken steps to provide the maximum amount of landscaping on the site. Concerning the landscape perimeter of the parking areas the variance is generally for the rear area abutting the South Dade Transitway. Adequate landscaping is being provided along the U.S. 1 portion of the parking area. The required landscaping for building perimeters is not being met along the rear and interior sides of the buildings. Overall, the type and quantities of the landscape material is sufficient to be in keeping with the spirit and intent of the landscape regulations.

2. The variance will be compatible with the surrounding land uses, and otherwise consistent with these Regulations and the Comprehensive Plan, and will not be detrimental to the community.

The Growth Management Plan goal and policies below are relevant to this request and its impact.

Goal 1

PROTECT AND IMPROVE THE TOWN'S BUILT AND NATURAL ENVIRONMENT THROUGH THE USE OF LAND IN A MANNER THAT ENHANCES EXISTING NEIGHBORHOODS, CONSERVES RESOURCES, ENSURES THE AVAILABILITY OF PUBLIC FACILITIES AND SERVICES, AND REALIZES THE COMMUNITY'S VISION FOR ITS FUTURE.

Policy FLU-2A: Development and redevelopment in the Town Center shall provide for the development of a well-designed and compatible area that provides attractive places to live, work and shop and that is accessible via the full range of transportation options, including transit, automobiles, bicycles, and pedestrians.

Policy FLU-2D: The mix of uses and street frontages in the Town Center shall be regulated through the Land Development Regulations in order to ensure its redevelopment as a functional mixed use downtown area for Cutler Bay, and to ensure that a variety of uses and functions are provided within a compact area.

Policy FLU-7C: The Town, through its Land Development Regulations, shall require developers to provide for the necessary on-site infrastructure improvements, including: parking; safe and convenient traffic circulation; sidewalks and multi-modal transportation facilities, as appropriate; open space; water and wastewater connections or facilities, and drainage and stormwater management.

The landscape requirements were created to enhance the natural beauty of the town improve the quality of life of the town's residents. The proposed development is generally consistent with the Growth Management Plan as it meets the intent of the Town's regulations concerning landscaping.

3. That the request for a variance is not based on an economic disadvantage to the owner or occupant of the property upon which the variance is sought.

Calvin, Giordano & Associates, Inc.
EXCEPTIONAL SOLUTIONS™

Memorandum

The variance is not related to an economic loss for the applicant but based on the development standards in the Town Land Development Regulations. The parcel to be developed is long and narrow surrounded by U.S.-1 and South Dade Transitway. This rather unique situation does not allow for flexibility in building and parking placement. With these limitations and lack of parcel depth the landscape requirements if implement would account for over 40% of the depth of the lot.

RECOMMENDATION

Town Staff recommends approval with conditions of the Variance.

1. General Conditions

1.1 The proposed development will be built in accordance with the plans submitted entitled "US1 – Caribbean Blvd. Commercial Center", consisting of 11 sheets and prepared by Ramos Martinez Architects and originally dated 3 July, 2015. The survey was prepared by Gunter Group, Inc. and dated 6-17-2015.

1.2 The Applicant shall submit an irrigation plan (Sec. 3-98) at the time of building permit application.

1.3 The revised landscape plan shall be reference both the Town and County landscape codes.

1.4 The Applicant shall provide vertical landscaping (in the form of trellises) along the western portions of the interior walls of buildings 1, 2 and 4 in order to ameliorate the lack of perimeter landscaping along the rear property line.
