**WHEREAS**, as a condition, Miami-Dade County requires a traffic study to justify the traffic flow modification and endorsement from the

Village to consider the approval of the no-right turn signs, as further detailed on *Attachment A*.

**NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE OF PALMETTO BAY, FLORIDA, THAT:**

**Section 1.** The Village Council hereby endorses the re-installation of the no-right turn signs between the hours of 6:30 am and 9 am, Monday through Friday at the intersections along SW 87<sup>th</sup> Avenue and SW 181<sup>st</sup> Street, SW 180<sup>th</sup> Street, SW 179<sup>th</sup> Street, SW 178<sup>th</sup> Street, SW 176<sup>th</sup> Street, SW 174<sup>th</sup> Street, and SW 170<sup>th</sup> Terrace.

**Section 2.** The Village Manager is authorized to commission a traffic study as required by Miami-Dade County.

**Section 3.** The Village Clerk shall transmit this resolution to the Miami-Dade County Department of Transportation and Public Works, Traffic Engineering Division for review and approval.

**Section 4.** This Resolution shall take effect immediately upon its adoption.

**PASSED and ADOPTED** this 23<sup>rd</sup> day of April 2019.

## Attachment A

### No-right Turn Signs Malbrook Neighborhood Area County Process

If the traffic flow modification(s)/street closure(s) is endorsed by the municipality, Miami-Dade County Public Works Department (PWD) requests the municipality to coordinate the review with agencies potentially affected by the traffic flow modification which may include, but not be limited to, the following entities:

- Municipal Fire Department.
- Miami-Dade County Fire & Rescue (MDFR).
- Municipal Police Department.
- Miami-Dade County Police Department (MDPD).
- Miami-Dade County Planning and Zoning Department (MDP&Z).
- Miami-Dade County Public Schools (MDCPS).
- Miami-Dade Transit (MDT).
- Florida Department of Transportation (FDOT).
- DTPW, Traffic Engineering Division.

If the preliminary review performed by the various affected entities results in denial of the request, then the **process ceases**.

If the preliminary review performed by the various affected entities results in concurrence with the request, then the municipality endorses the request and forwards it to DTPW, Traffic Engineering Division, for their review and approval by providing a Traffic Study. The engineer needs to provide an analysis (inclusive of traffic counts) of the impact and/or benefits to the overall network that the proposed traffic flow modification will create. Once the analysis is presented DTPW will review. (60 days)

If the request is approved by DTPW after review of the traffic analysis, the municipality shall mail out ballots to obtain concurrence from the affected residents and/or property owners. Concurrence of two-thirds (2/3) of the affected residents and/or property owners, who elected to vote (ballots received) is required. Non-voters are not counted (ballots not returned).

After all ballots have been open, DTPW will notify the applicant and the municipality, of the approval or denial of the traffic flow modification(s)/street closure(s) request.
