BACKGROUND

Initially, the property owned by the Applicant totaled ± 132 acres in size. As part of the Comprehensive Everglades Restoration Plan (CERP), the eastern ± 123.57 acres were sold to the State of Florida/South Florida Water Management District (SFWMD) for the Acceler8 Initiative. This Coastal Wetlands project's aim is to expand and restore the wetlands adjacent to Biscayne Bay to enhance the ecological health of Biscayne National Park. It should be noted that the State of Florida/South Florida Water Management District had the option to purchase the remaining ±8.43 acres at that time, however this site was designated as uplands, with no sensitive environmental value. As such, and as confirmed by the SFWMD, this proposed development will take place wholly within non-jurisdictional wetlands.

On February 21, 2018 the Town Council voted to deny an application for Site Plan approval. Subsequently, Cutler Properties, LC (the "Applicant") submitted a Request for Relief from the denial under the Florida Land Use and Environmental Dispute Resolution Act, Fla. Statute § 70.51 (FLUEDRA). This process allows for negotiations to take place between both parties with the aid of a third-party magistrate. Based on the applicant's

Request for Relief, the Town agreed to enter into further discussion and the applicant has submitted revised plans.

On September 20, 2019 FLUEDRA proceedings were held before a Special Magistrate. Subsequent to the proceedings and after reviewing all the facts were presented the Special Magistrate recommended that the Town Council approve the Site Plan designated Option D (as revised). The Site Plan proffered by Cutler Properties was determined to be “as-of-right” that is consistent with the Town’s Growth Management Plan and complies with the Town’s Land Development Regulations. The Special Magistrate took note that the plan requires no zoning relief nor does it show an opening or access to SW 77 Avenue for either vehicles or utilities. Finally, the Special Magistrate stated that the failure to adopt Option D (as revised) would be unreasonable and unduly burden the property (owner) and strongly recommended the Town Council adopt the Option D (as revised) Site Plan

The proposed development, if approved, will be located on a vacant parcel approximately ±8.43 acres in size. The property is located east of Old Cutler Road, south of SW 184 Street and north of theoretical SW 186 Street. The parcel is served with power and telephone from Florida Power and Light Company and AT&T, respectively. Municipal water and sewer and solid waste will be provided by Miami-Dade County. The site currently has access to the County roadway network through Old Cutler Road and as proposed this will remain the only ingress/egress from the development.
